Would You Rather Live For A Week As (1) Epicurus During the Last Week of His Life or (2) An Anonymous Shepherd Laying In The Grass In The Summertime With No Pain At All?

For me that one is easier I think - I would want to be able to question Epicurus in his most mature and advanced stage of life, so I would say "being with Epicurus during the last week of his life" to ask him where he eventually came down on many of these same issues we are discussing.

And i would probably include the exact question we are discussing from post one of this thread.
