

PD10 - Interpretations of PD 10 Discussion

Post by “Cassius” of January 17, 2021 at 5:04 PM

[Quote from Cassius](#)

My own conclusion is that the wider interpretation DOES provide real benefits to SOME real people, but for other real people it does not.

And one of the keys to this is going to be the definition we use for "logic" and "reason" which is addressed near the end of the podcast. I am particularly interested in as much feedback as possible from people on this point, as you will understand when you listen.
