

Is There A Relationship Between "Anticipations" and "Instinct"?

Post by "Elli" of April 23, 2021 at 5:31 PM

[Quote from Cassius](#)

Would your Greek beavers build dams even if separated from their parents and other beavers at birth?

Aristotle that maybe he had observed the greek beavers and many animals may would give you the response to your question. 😊

IMO beavers are not able to build dams IF they will be separated from their parents and IF in their enviroment they will not have interactions and meetings with other beavers to learn from them how to build their dams and how to co-exist with them.
