

Menoceus - On Death - by Martin

Post by "Cassius" of November 19, 2018 at 9:12 AM

Here is an example of a recording of a reading from Epicurus prepared by Martin. Martin prepared the core reading, and I edited it into a segment with an opening and closing tone. I plan to add this, and many others as they are prepared, to the epicureanradio . com stream, as discussed in my earlier post. Thank you Martin!
