

# Was Epicurus really arrogant?

Post by "Cassius" of January 8, 2022 at 1:09 PM

[Quote from smoothiekiwi](#)

If everyone can truly be happy, why then claim the title to be the only wise man, as opposed to the philosopher title, for himself?

If you have a page and line number I'd like to see that, rather than just post general comments that in general I think DeWitt is the best available commentator. I don't accept that this was Epicurus' position (that he was the only wise man).
