

PD10 - Interpretations of PD 10 Discussion

Probably there is some discussion in Plato and/or Aristotle relevant to this but if so I am not aware of it. This does not seem to me to be the same as the "purity" issue which to me is related to the "limit" issue.

I sense that Godfrey's suggestion that the bottom line is the pleasures are similar (all are feelings) but cannot be ranked absolutely (as there is no objective standard) but there likely was some existing contention that he was bouncing off of by constructing the discussion in this way.
