

PD10 - Interpretations of PD 10 Discussion

Post by “Kalosyni” of January 10, 2022 at 11:19 PM

[Quote from Don](#)

If all pleasures were alike in these respects, then there would be no difference at all between them, but as it is, a ‘calculus of pleasures ’ becomes possible, we can select our pleasures, either according as they are more pure, i e. more completely exclude pain (VIII and XI), or as they are more lasting or affect the whole organism or its more important parts.

The sweetest of pleasures bring no regrets.
