Epicurean non-belief creed

First draft:

I do not have any beliefs.

I know some stuff.

I know that some of my knowledge may be wrong.

I know that there is a lot more stuff which I do not know.

I know that there is stuff of which I do not even know that I do not know of it.

This very partial knowledge does not compel me to any belief, because so far, I have acquired any knowledge needed to enable a pleasurable life, and I am confident to keep this attitude until death terminates my existence.
