

# Favorite Translation of Lucretius

Post by “Eikadistes” of January 24, 2023 at 7:47 PM

## [Quote from Cassius](#)

Thanks for the new poll, but am I overlooking it or did you leave out the Brown 1783 version? We don't know the translator's name, but I actually consider that one of my favorites due to the rendering of several important passages - one that stands out to me is his use of "events" rather than exclusively "accidents" in describing emergent properties.

I've added him to both.
