Tonight i updated the ["A Few Days In Athens" website](#) to a simpler, more modern design, which should be more responsive and easier to read on any device.

I continue to be impressed at how thoughtfully this work presents Epicurean philosophy. If you haven't read it yet, I urge you to find time.

Should anyone have any problems or suggestions for the new format, please let me know.

Note: I have also added the complete text of the book into the "Frances Wright" forum here, with one thread for each chapter, so people can discuss each chapter separately.
