

Epicurean Symbolism in Herculaneum Art - Something To Track Down

Post by "Godfrey" of May 16, 2023 at 1:00 AM

To me, Epicurus has a slightly thinner face with slightly more pronounced cheekbones than the figure in #5 and #12; I would not say that that is Epicurus. Looks much more stern than Epicurus as well. But if the image is labeled "Epicurus," that could explain how it ended up on the Guyau book cover.
