Of course it's easy for anyone to post their own articles at substack

Which brings up an interesting question: Should more of us be posting to substack to increase the epicurean content "outside our Garden"? Or should we use Cassius' new outlet to simply expand the outlet of voices?

Some Substackers post daily! That amazes me. Cassius committing to a regular bi-weekly level of content is daunting!! Cassius has been doing weekly podcast releases for years. His posting a lengthy Substack article biweekly deserves ΚΥΔΟΣ (kudos)! I barely get a quarterly newsletter out at work!!

I read the new article, too. ΚΥΔΟΣ for that as well! Very impressive and highly referenced with quotes. Well done!!
