

New Article Attacking Epicurean Physics: "Science Versus the Oldest Anti-Intelligent Design Argument "

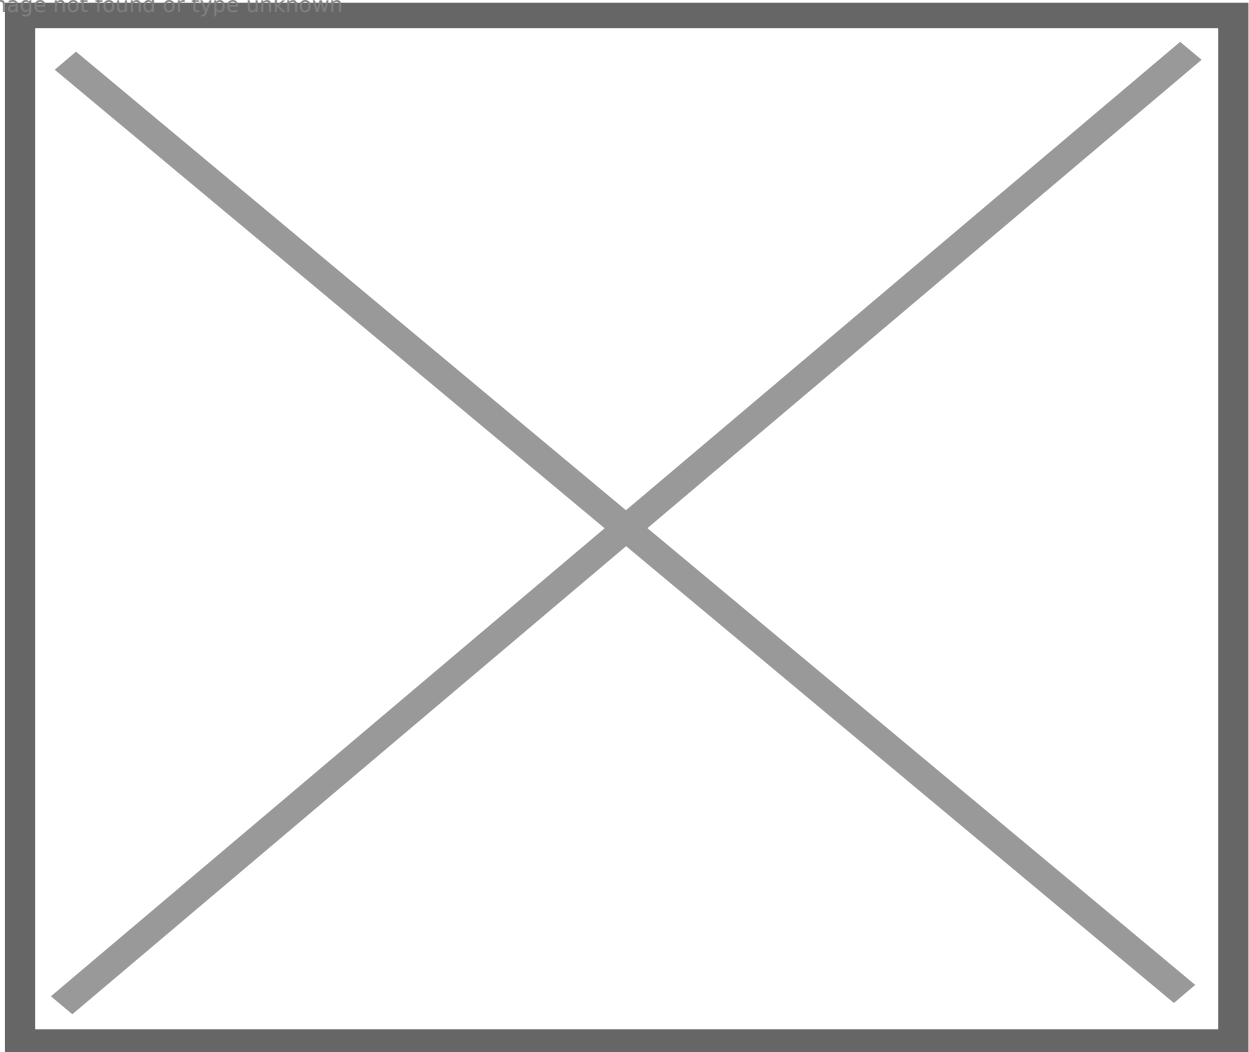

Post by "kochiekoch" of May 17, 2024 at 9:15 AM

Yeah. This guy, in the top note, is assuming that the universe is finite, in order to salvage intelligent design. The evidence, so far, shows a geometrically FLAT universe. As far as we can see in the observable cosmos.

[What shape is the universe? \(astronomy.com\)](https://astronomy.com)

The implication of a flat universe is that it is infinite, or so unimaginably huge it might as well be. 🤔

The universe is very old and VERY big, and ANYTHING that is allowed by physics is bound to occur.
