

Default Theme Update - June 8, 2024

Post by "Cassius" of June 11, 2024 at 7:55 AM

Sounds like that theme may be on a second page of a list (perhaps due to a screen size difference) or we need to change the permissions to make it more widely available. We'll figure that out and report back. Is anyone else able to see Kalosyni's style by using the "Change Style" button at the bottom of a page? I see it, but that might be due to a privilege setting.
