Yes Julia, Kalosyni is correct that it should be in the list -- maybe the name is being truncated on the screen you are using? If so I can shorten the name or give it a different starting letter. Let me know if you don't see it and we'll try that.

As for customized artwork that is a great idea and we'd welcome any suggestions you want to make. Like everything else here the styling is a "work in progress" so we're not wedded to any single decision.
