

Tetrapharmakos in Philodemus's On Choices and Rejections

[Don](#) I was just re-reading through post number 5 above, and pondering that there is a lot there - if only we had the full text - there are so many lines and words missing...(if we had it things would be so much clearer).

And wondering...for the 4th on the list, perhaps instead of "easy to endure" it should say "easy to avoid"?

And also recalling in what [Cassius](#) wrote above, about avoiding the over-simplified version of the Tetrapharmakos.

Perhaps needing to revisit the best way to state the four points to their fullest 🤔
