

Happy Birthday General Thread

Thank you very much, Kalosyni. Very kind of you to send me birthday greetings on my birthdate, **October 9**.

I am so proud to share that birthdate with John Lennon, Camille Saint-Saens, Alfred Dreyfus, Nikolai Bukharin, Aimee Semple McPherson, Bruce Catton, Alastair Sim, Lee Wiley, Steve McQueen, and many other people of note...

Some ignorant people claim that Giuseppe Verdi was born on October 10. But his mother told him it was the 9th. And Verdi, who lived a very long life (he lived 88 years), always celebrated his birthday on October 9th.
