

# **A Fable on Unattainable Expectations**

**Post by “Kalosyni” of November 22, 2024 at 9:15 AM**

Regarding the article [Pacatus](#) posted above, and the "three brains" (reptilian, mammalian, and primate) -- the "three brains" is no longer the considered the best model for the human brain.

The new model is called the "adaptive brain" and you can read about it [here](#).
