[Quote from Bryan](#)

Nevertheless, we do not experience what our eidola "experience" [i.e., how they are impacted], nor can our eidola (or anything else) manifest in a "metaphysical realm."

I just posted it because it's interesting where Hannah's claims are lead and ChatGPT does quite well in systemizing his thought. I even asked ChatGPT for writing a handbook on how to establish a sect on the basis of "**Speculative Transformative Epicureanism**" and it did quite well. But I better don't post it, otherwise Cassius will ban me for heresy. 😄
