I'll add other links as I find them but we need a media (audio) version of the Life of Epicurus, so this will start that process.

First, I have two versions of Book 10. The first and latest is Cyril Bailey translation. This is a first draft and I am going to work on improving it and will update this link.

(Status as of 2/9/26 15:45 The voice is better but there are still glitches in output.)

And here is an older version in a female voice which is less advanced but still very listenable. i need to check but i think this is the Hicks version:
