

## **Alex O'Connor made a video about us.**

**Post by "Cassius" of May 4, 2026 at 9:51 PM**

My blood pressure started rising as soon as I saw that the opening graphic features the smashed-version Epicurus bust (which I detest when people use rather than the many perfectly-good alternate versions that are available). But I won't charge that to the interviewee, and at least at the moment that's not on the cover of his book. 😊

I also see that the book isn't scheduled for release until 2027 if I read correctly. I always feel better if the word pleasure is in the title or subtitle, which it doesn't appear to be, but i do see pleasure mentioned in the description, and i see that it specifically is "not a book about wanting less" so I will remain cautiously optimistic!
