

Diet, Fasting, And Anti-Establishmentarian Tactics

Post by “Cassius” of August 24, 2019 at 8:44 AM

Martin this reminds me that we need to find some good videos on the physics issues. I know that Alex is very impressed with Victor Stenger and to the extent I have read into him that seems promising. 1. Do you know of videos we should add? 2. Do you consider Stenger to be a good representative of someone who is friendly to Epicurean physics?

Similarly I bet we can find some videos on the math/geometry vs. reality issues.
