

## **Dead Reddit / The "Isms" Thread**

**Post by "Elayne" of November 26, 2019 at 7:57 AM**

Lol, Joshua... my aesthetic distaste for the sound of ism, which sounds like a person is strangling when trying to swallow something, leads me to suggest DeWitt could have spoken of the spread of Epicureans or Epicurean groups, because that focuses on the people involved.

I don't find this discussion tedious, but I definitely think it is best suited for a group which understands the philosophy already.
