Epicurean-ism is a school-ism of philosoph-ism that has for its main cores :

Pleasure-ism that is based on virtues as Prundenc-ism, Justic-ism, Honor-ism, Benefit-ism with Friendship-ism, among friendists!

And you want more ? If you say Epicurean-ism without the word as << philosophy>> it is right then, people to think : Ah, this is a mainstream with kitchens with good food and wine!

As for stoicism they did well to make their system and name it from "stoa poi kele" i.e. from wall and stones as its people are bricks and stones living in apathy i.e. without passions ! And this is their evolution : <https://www.youtube.com/watch?v=TRNMVeOOPwc> 🤪
