

## SOE5 - On Attestations

The source would be whoever translated the source, but also I did a search online for the word attest, which my immediate instinct is that it means “to witness”, and this is what what came up:

*verb*

1. provide or serve as clear evidence of. "his status is attested by his recent promotion"
  - declare that something exists or is the case. "I can **attest to** his tremendous energy"
  - be a witness to; certify formally. "the witnesses must attest and sign the will in the testator's presence"

---

The obvious relation to the canon and to enargeía is that it implies that evidence is being presented to us and we are certifying it.
