

Glossary - What is the Epicurean Definition of "Pleasure?"

I guess there is no need to debate on the exactness of the definition of pleasure since it's a straightforward term. The very word speaks for itself. What we had to was happiness. And based on the flow of our discussion, the best way to define happiness is through examples instead of through abstraction. Just like with the word pain, I don't think we have to be confused with pleasure. Again, Epicurus is not big on definitions the way Plato and Aristotle spend much energy with.
