

Avowed Enemies of Epicurus: Dante

Those are Dante's words:

Suo cimitero da questa parte hanno

con Epicuro tutti suoi seguaci,

che l'anima col corpo morta fanno.

My horrible translation:

Here the groves of Epicurus and his followers, they think the soul will die with the body.

Dante do not know almost anything about Epicurus.

In his journey in the Hell he met epicureans like everybody born before Christ.
