

The Essential Cicero?

IF you figure it out please let me know as i have the same issue. I highly recommend the ENTIRE book of 'on ends' in terms of philosophy, but i don't have a broad grounding like I would like. At one time I even bought the Taylor Caldwell "Pillar of Iron" which I understand to be sort of a biography, but I did not very far in it. I am beginning to think that it is going to be necessary just to start to read through his letters, but no doubt a biography which can relate the details to the wider scheme of events would give essential perspective.
