

The Essential Cicero?

Post by "Cassius" of April 29, 2020 at 8:04 AM

I too am thinking that just diving into his writings may be good enough as a start, especially ON ENDS, which I find extremely helpful to the big picture of the philosophical conflicts as of Cicero's time. Probably those philosophical works can best be read before reading a biography, but I am thinking that diving into the letters would be best done after at least some introduction to a "Major Events In the Life of Cicero" timeline of some kind.
