

Annotated Menoikeus Project: First Draft

Post by "Cassius" of October 14, 2020 at 8:17 AM

Great point Don and I draw exactly the same conclusion from your observation. Surely he was trying to be precise because he was aware of exactly the same kind of motivation to obscure the point - there is always the temptation to "soften" the impact by playing over to other schools such as with the generic "happiness". Using the same word in two close locations was very likely intentional.
