

William Harris - "The Old Idiosyncrat's Method to Homer"

Post by "Joshua" of May 31, 2021 at 10:58 PM

Sticking this here for lack of a better place. This essay (attached) is the original inspiration for my fitful start at memorizing Lucretius. The proposed Interlinear Edition had its conceptual beginning with Prof. Harris' method. Scroll to section 2 for his ideas on the subject. The seed has been several years in germinating, I'm glad I was able to find it again this evening!

i read every page of that - excellent article!

Yes I agree with Don this is an exciting and much-needed project!
