Here is a new blog post I just created, on weight loss and healthy eating. I quote the following Vatican Sayings:

54. Do not pretend to love and practice wisdom, but love and practice wisdom in reality; for we need not the appearance of health but true health.

59. The stomach is not insatiable, as most people say; instead the opinion that the stomach needs unlimited filling is false.

68. Nothing is enough to one for whom enough is very little.

69. The ingratitude of the soul makes a creature greedy for endless variation in its way of life.

71. Ask this question of every desire: what will happen to me if the object of desire is achieved, and what if not?
