

# Scientific American Article - "Genetic Memory: How We Know Things We Never Learned"

Post by "Cassius" of June 23, 2023 at 7:13 AM

I came across this article in a roundabout way so I am not 100% sure of it, but I'll post based on the reputation of "Scientific American" -

[Genetic Memory: How We Know Things We Never Learned](#)

I met my first savant 52 years ago and have been intrigued with that remarkable condition ever since. One of the most striking and consistent things in the...
