Tonight at 8pm, we will cover Vatican Saying 30 & 31. Please join us. (Post here in this thread if you have never attended one of these sessions as we do have a vetting process for new participants.)

VS30. Some men, throughout their lives, spend their time gathering together the means of life, for they do not see that the draught swallowed by all of us at birth is a draught of death.

VS31. Against all else it is possible to provide security, but as against death all of us, mortals alike, dwell in an unfortified city.
