

Help - How To Locate "Log Out" Button

Post by "Cyrano" of October 14, 2024 at 3:52 PM

How do I sign off or log out of this website? It seems I used to know how; I believe I have, many months ago, done it a whole number of times.

But now - though I have searched on every page here and opened every logo (and spent over an hour!) - I just can't find how to get the hell out of here.

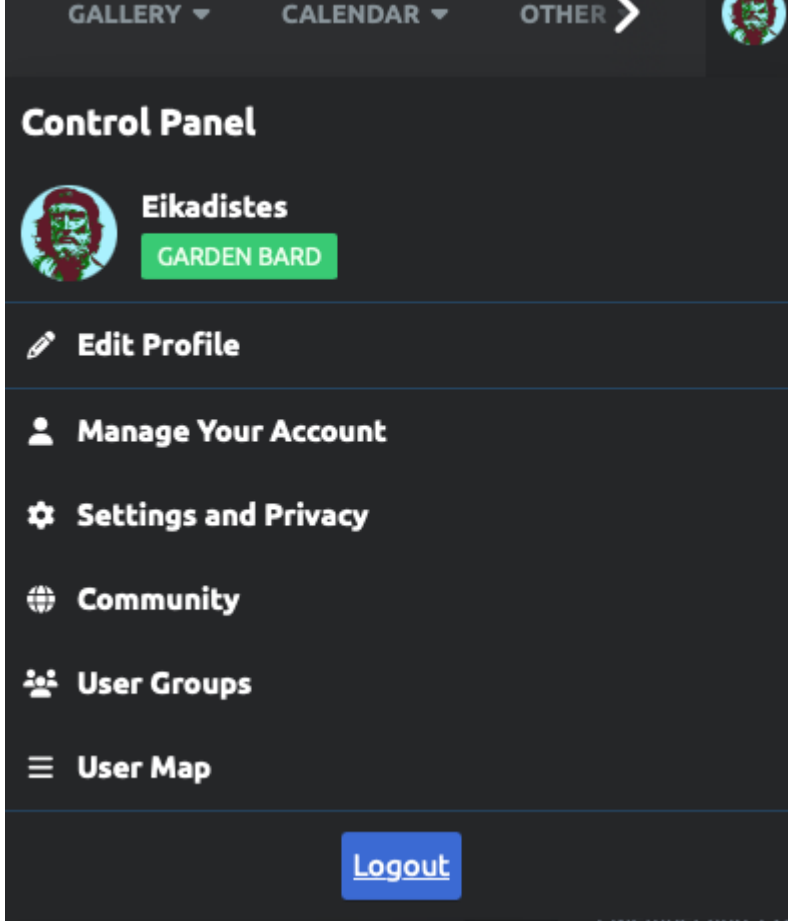

I'm feeling very stupid! 😞

4th icon from the right at the top of the screen - it's called 'Control Panel'. Click it and at the very bottom, right in the centre of the pop-up menu you'll find 'Logout' button.

Click your *user icon* in the upper-right corner:

Logout is at the bottom.

Yes, of course! Where else would it be? And I went there over and over, but no - not a Log Out button.

But I finally figured out my problem. My entire page was too large. When I reduced its size, lo and behold: there big and bright appeared the Log Out button.

But I do not feel so bright myself. I made a fool of myself on this genius of a website.

[Quote from Cyrano](#)

My entire page was too large.

This is actually a very common problem and it often traps me. The software does a good job of adapting to different screen sizes, but I think the designers generally work from good-sized screens, and if you don't know what to look for, you might never realize that there is something lurking just off the visible edge of the screen.
