This morning (10/30/24) around 9:00 AM EST, our hosting provider had a brief outage, and EpicureanFriends was unavailable for approximately an hour. As a reminder, if you ever find EpicureanFriends inaccessible, look for updates at our emergency backup wiki, which should be accessible at [CassiusAmicus.com](https://www.cassiusamicus.com), or our main Twitter/X feed which is at <https://x.com/CassiusAmicus>.
