

# Media Versions of Diogenes Laertius Life of Epicurus

**Post by “Cassius” of February 8, 2026 at 12:09 PM**

I'll add other links as I find them but we need a media (audio) version of the Life of Epicurus, so this will start that process.

First, I have two versions of Book 10. The first and latest is Cyril Bailey translation. This is a first draft and I am going to work on improving it and will update this link.

(Status as of 2/9/26 15:45 The voice is better but there are still glitches in output.)

And here is an older version in a female voice which is less advanced but still very listenable. i need to check but i think this is the Hicks version:

I will be working to improve the text of the text-to-speech version of Bailey being used to generate the one based on Joshua's voice.

I am going to try to learn GIT so I can keep better track of changes and more easily accept suggestions. Given the current engine we are working with it's sometimes necessary to cut super-long sentences into multiple shorter ones, or slightly modify wording in way that the engine can handle without spazzing out. If you'd like to see that text and/or participate with improving the audio, the raw file is at this CODEBERG location:

If you know GIT feel free to suggest updates. If you don't know git, you can (1) click the "view source" button " < >" and it will show you the line numbers that need editing and then (2) submit changes either here in this thread or to me by private conversation.
