

New Book "Epicurus' Human Beings: Beyond Person and Self"

In my research today, I just found this first chapter on the Letter to Menoecus, from a new book just published February 2026, by Solmeng-Jonas Hirschi. (Written as a scholarly/academic examination).

It looks like it will have special interest for those who are studying ancient Greek language.

Based on the abstract it looks *highly* specialized.

I'm intrigued, but anything that starts out...

Possibly a protreptic vade mecum...

Is a bit daunting to say the least.
