Greetings

I hope all is well. I just wanted to share a project I finished.

I finished an attempt at Book 1 of On Gods. No published translations are currently available of P.Herc. 26. Dr. David Armstrong apparently started doing so, but ... Philodemus really, really, really sucks to the modern eye as a prose writer, so Dr. Armstrong, as I've read, abandoned the project. Anyway...

I published my translation of the entire book here:

I will be revising updates on [twentiers.com/on-gods/](https://www.twentiers.com/on-gods/)
