

Reverence and Awe In Epicurean Philosophy

Post by “Matt” of December 27, 2020 at 3:33 PM

Honestly whether there are many thousands of Epicurean deities, 5 of them, or just one, the number ultimately does not change whether such a being/beings can or should be described in extremely deep philosophical detail. Simply because whether there are 5000 or just 1 we have the same amount of verifiable information about any number in that range.
