

# **Catherine Wilson's January 2021 article: "Why Epicureanism, Not Stoicism, Is The Philosophy We Need Now"**

**Post by "Don" of January 14, 2021 at 9:04 AM**

Oh my! We already have a hypothetical drug and now we're talking about ill-defined gods. Yikes.

My answer is still no. Epicurus wouldn't advocate taking the drug. How would it make me a god? How would my atoms replenish themselves to make me incorruptible?

That's a quick reply. More later.
