

# Topical Guide

**Post by “Daniel Van Orman” of May 5, 2018 at 1:24 PM**

I am glad you are excited for this project. I hope it will be useful to many.

I am creating an SQL database for Epicurean and utilitarian passages/quotes from texts (I am a utilitarian, see the "Background" section for details). The passages have citations and are tagged with topics. One may search using a topic and find a number of passages from multiple sources to find quotes or know where to go to learn more about a topic.
