

(Donovan) Paul - The Epicuriana - 2020

Post by “Charles” of January 31, 2021 at 3:19 PM

I've had my eyes on this book for a few months now thanks to working in the book industry for a bit 😊 but I've paid little attention to it since but decided that it should be at least archived on here. It's another fictional book regarding Epicurus, and perhaps I'm being too harsh but it wasn't my cup of tea, far too dramatic and focused on Timocrates as opposed to other philosophies, something you could expect given references from Laertius and how well-versed his students. Though too its credit it was far better than the dialogue in Imaginary Conversations but its no A Few Days in Athens.
