

# Epicurean Rules of Evidence

Post by "Elli" of February 2, 2021 at 7:54 AM

Our friend Bryan has correctly said: <<Ἐπίκουρος and Lucretius use the analogy of 'throwing' or 'casting' the **mind (as though the mind were something like a net)**. Put simply, animi iniectus and ἡ επιβολή τῆς διανοίας are equivalent to our modern use of 'attention.'>>

Wow, yes, that's it ! **This is the networks of the brain (please see the picture).**

Who is Epicurus and Lucretius ? Nobody...so bury both of them inside the ground, and as deep as you can.

And that is because, here (in the picture) is the true knowledge by "holy" men who the only thing want from us is to keep the whole of our **attention**, and keeping as such. **through repeated practice, through repeated practice, through repeated practice.** 😊

1st dogma: God is so Omnipotent, Omniscient, and Omnipresent for he created not only you, but the **whole Universe!**

2nd dogma: There is an afterlife in heavens. In heavens you will eliminate your hunger and thirst for **Justice**.

The "holy" men say: "Let the little children come to me. Don't stop them, because the kingdom of God belongs to people who are like these **Children**".

Children that will remain till the end of their life as children who are afraid in the **Darkness!**

<<**Life is sweet and death is darkness**>> as a greek poet said!

**Sweet** in greek language is synonym with the word <<ἡδύς>> that means **pleasant!**

Those "holy" men... what are they fighting against? The sweetness of life i.e. the pleasure and the life itself!

So, these children that remain children till the end of their life, are living in pain and are dying in pains.

**Sorry, being Hellene, I piss upon the graves of the emperors CONSTANTINE, THEODOSIUS, EUDOXIA and LEO III, the Isaurian that lived in the byzantine era!**

<<*We modern Greeks resemble our ancient ancestors only in form. But the mass, this m the physicists talk about, is utterly Jewish. And the space, the spatium or this s the physicists talk*

about, within which the de-Hellenisation of the Greeks took place, is Christian Byzantium. And the time, the tempus or the t the physicists talk about, within whose duration the process of Jew-ification of the Greeks took place, stretches from the time of Emperor Theodosius until this very day. Theodosius destroyed temples, ravaged ancient statues, closed down stadiums, theatres, Greek schools. All the sources that were the lifestream of the Hellenic way of life. This is why he is remembered as "the Great". Which is the way his predecessor, Constantine, is also remembered. The Caesar who murdered his own wife and son. And they were first called "Great" by those who also called "Great" the Emperors Athanasius, Basil and all their ilk. Destroyers, forgers, vandals of the Hellenic idea. But there is another voice, persistently whispering from the shadows, that all the brutalities the Christians inflicted upon the Greeks mean nothing in the end for those that did not become Jewish-Greeks but remained Hellenic-Greeks. It rises from a distant place and is only heard by a few:

**Just because we tore their statues down, (along with the inscription by Diogenis of Oinoanda)**

**and cast them from their temples, does not mean that the gods are dead.**

This is the poet Cavafy, dear reader, not some miser. Not some invented god. And the poem is called Ionian. It is not called Cherubicon. The dissolution and extinguishing of the classical Greek by Jewish-minded Christians lasted from the time of Theodosius until the time of Empress Eudoxia. Up to 843AD, with the official restitution of the icons. This holiday in the Orthodox calendar is celebrated annually since then, at the beginning of Spring! It is a grandiose celebration attended by state officials and foreign dignitaries. Viewed from a positive perspective, it symbolizes the triumph of Christianity. But viewed from its negative perspective, it represents the utter destruction of everything Greek. **It is the tombstone of the Hellenic idea.**

The last stand of the moderate "Greek" against the Asian monstrosity was through Leo III, the Isaurian. He got up one morning and realized that half the population of the empire had taken up the cloth and were having a splendid time. Then, like Jesus at the temple, he began what came to be known as the Iconomachy. That story reached its sad conclusion with the light defeated and darkness triumphant. With the Sunday of Orthodoxy and the appearance of the modern Greek identity. So Greeks only by name and superficially. And Jews to the bone, the blood, the heart, the intestines and the bile. **Herein lies the key, the reason and the cause of the national schizophrenia>>.**

Liantinis Dimitris book "Gemma"

## Synaptic plasticity

When engaged in new experiences and learning, the brain establishes a series of neural pathways. These neural pathways, or circuits, are routes made of inter-connecting neurons. These routes are created in the brain through daily use and practice; much like a mountain path is made by daily use of a shepherd and his herd. The neurons in a neural pathway communicate with each other through connections called synapses, and these communication pathways can regenerate throughout your whole life. Each time that we gain new knowledge (through repeated practice), the synaptic communication between neurons is strengthened. A better connection between the neurons means that the electric signals travel more efficiently when creating or using a new pathway. For example, when trying to recognize a new bird, new connections are made among specific neurons. Neurons in the visual cortex determine its color, the auditory cortex identifies its song, and other, the name of the bird. In order to know what bird it is, its attributes, its color, song, and name are repeated many times. Revisiting the neural circuit and re-establishing neuronal transmission between the implicated neurons at each new attempt enhances the efficiency of synaptic transmission. Communication between the relevant neurons is facilitated, cognition made faster and faster. Synaptic plasticity is perhaps the pillar on which the brain's amazing malleability rests.

MONOTHEISTIC RELIGIONS IN FULLY COLLABORATION WITH THE IDEALISTIC POLITICAL IDEOLOGIES, IT IS A CONTINUOUS STIMULATION INSIDE THE NEURAL NETWORKS OF THE CHILDRENS' BRAINS.

Inside families, schools and whole societies... We've INVENTED A CONTINUOUS STIMULATION of the childrens' brain with pictures, words, hymns, along with the monuments i.e. churches, temples etc. Thus, the children will remain till the old age, as children! This is the purpose on how to rule the whole world , since every political leader has been chosen by the GOD, and he is doing the work of GOD.

Kids, your attention please...here is your right education/paedia in any field and in any place and in any time forever and ever!!  
 knowledge through repeated practice...  
 knowledge through repeated practice...  
 knowledge through repeated practice...
