

Epicurean Theology Compared to Mormon Theology

Ok I found my original video which I will post here for now unless and until someone complains. We're obviously not making any money from this and it is purely for academic research / fair use purposes.

I tweaked the wording of the original hymn in this version, and applied a new set of subtitles to illustrate how little change might be needed to show the parallels:

Now maybe if someone could SING we could get a good version with the new words 😊
