

Alt-tech outreach

Post by “Protonus” of February 17, 2021 at 10:13 PM

I found my new job with it, chat with former co-workers, and do networking with it, and follow a couple interesting people/groups. I'm inclined say it isn't a *huge* spam generator, but I'd be splitting hairs since there's certainly some spam on it.

Sadly, like Facebook et al, there's no shortage of BS political arguing and dogma.
