Yes I DEFINITELY think it's relevant. Two notes:

(1) I edited Godfrey's post to put a link to make [PD14](#) a link to the text.

(2) And that reminds me that it would be very easy to add the PD's into the "lexicon" feature so that every time someone rights PDXX the text is converted into a link into that exact text. That would be a neat use of the Lexicon that had escaped me! I'll test that out and we'll see.
