

# **Technology Initiatives And Helping Each Other With Epicurean Philosophy On The Web**

**Post by “AdamSandvoid” of April 13, 2021 at 4:32 AM**

Cassius, I'm on mobile (chrome) and there is some issue when I try to scroll down on the home page - - for a brief moment it displays a little up arrow in the bottom right corner and scrolls a bit, then the page jumps back to the top. So I cannot read the whole page, only the first paragraphs. I was able to read a full page when I clicked on a specific chapter. Otherwise it looks good!
