

Episode Sixty-Six - The End of All Things (But Not Of The Universe Itself!)

Post by "Cassius" of April 14, 2021 at 10:47 AM

Oh yes, you're right. I was focused on the issue of whether there is a "rule" that all things that come together from constituent atoms must eventually come apart, but yes I see how it is appropriate to consider the recombination as part of the same issue.
