

# Is There A Relationship Between "Anticipations" and "Instinct"?

Post by "Cassius" of April 23, 2021 at 1:00 PM

[Quote from elli](#)

he did not mean only the instincts

That is a key sentence. You do agree that instincts do exist within humans too? So that both instincts at birth do exist, but also experience comes into play after birth? No one seems to argue that instincts alone exist, but many seem to want to argue that experience after birth is the ONLY mechanism that exists.

Would your Greek beavers build dams even if separated from their parents and other beavers at birth?
